A 12 Month Programme Breakthroughs that last a lifetime

IT'S NOT A CONFIDENCE THING

Our research with high potential women told us they want to make an impact in their leadership but the perceived COST is way too high.

Cost to health, cost to values and authenticity, cost to personal relationships, perhaps even cost to security.

WHICH IS WHY WE TEACH BOTH 'BEING' AND 'DOING'

We don't need exhausted warriors, burning out, fighting daily to create 'success'. We need more inspired leaders with a toolkit bursting with techniques that change the game for them and everyone around them.

Our women uncover a new way of being that transforms mindset and a new way of doing that leads to bold, daring action.

UNLOCK WHAT'S ALREADY INSIDE

'Potential' is probably the most misused word in professional life. The history of humankind shows us that humans are capable of more than most of us can imagine. We've already learned how to fly, cured the incurable, walked on the moon and created machines that seemed inconceivable.

The human power to create is beyond our limited imagination.

The mindset that knows that and believes in stepping beyond the obvious, is the one we need in leadership.

Our women learn to create more than they can even imagine.

A CRITICAL INGREDIENT

Leaders need to inspire as well as create. They need teams who are inspired by them and excited to be in their world. The best leaders are commercial AND able to tune into their wisdom and humanity to build something lasting that makes the world a better place.

Our women create results with heart.

A 12 Month Programme
A Community of Exploration and Experimentation

Q&As...

When does it start?

Our next programme starts in March.

Facebook? Really?

We've been running inspiring communities for a while now. In our experience, Facebook is well understood and already used by most participants. This means they're already regular visitors and we don't need to 'attract' them to a platform. Facebook's ability to create live interaction and build community is unparalleled. And almost everyone gets how it works.

300 - too big or too small?

Community works when it is rich and diverse. Online community works when there are enough participants to foster great conversation and cater for the fact that some will converse less than others.

We've guided many women through online development. We know that size matters. We've chosen the number we believe is just right.

HOW IT WORKS

Remarkable Leadership is a 12 month online community based programme delivered in cohorts of 300 women. Women can apply personally or be sponsored corporately (including in small groups).

Exclusive programmes for individual corporates are available (only 1 per year) and are run in parallel with the planned release dates for public programmes. These are best suited to organisations who are already familiar with our work. Contact leadership@remarkablewomen.co.uk to find out more.

THE PROGRAMME INCLUDES

- 12 x 90 minute **interactive live masterclasses** with Nic and Danielle (recorded for those who miss the live event)
- Access to a Hub of all masterclasses to (re)watch after the live sessions
- A recommended **resources list** (The Inspiration Larder) for those who want to go even deeper
- **One year's free membership to** an extensive library of over 90 **Lightbulb Moments** (10 minute short videos designed to shift mindset)
- A Private Facebook Community where participants can connect with like hearted women to support each other

WHO IS IT FOR?

Over the past five years, we've worked with the most senior women in organisations and those at the front line. The same principles apply for everyone. That said, our work is not for everyone. Remarkable Leadership is for women who are excited and curious and committed to creating a remarkable life.

Desire to learn and translate that learning into action is the single factor that will determine outcome. Title is irrelevant, in the very best possible way.

This is 18 hours - 0.002% of the time available in any given year. It's 18 hours that could change everything. We can provide the platform, everything changes when YOU step in.
